**Job Application for Systems Engineer (C++ Developer)**

Respected Hiring Manager,,

I am thrilled to apply for the Software (C++) Engineer role at Tower Research Capital. As an Experienced C++ Programmer, I have honed my skills in optimization, system design, and low-level software development. My work has consistently focused on writing efficient, maintainable code and collaborating with diverse teams to solve complex technical challenges.

I am confident that my experience in graphics programming and engine architecture will enable me to make a significant contribution to your High-Frequency Trading platform at Tower Research Capital.

Thank you for considering my application. I look forward to the opportunity to further discuss. Thank you for your time and consideration.

Sincerely,

*Ishansh Lal*
